INTRODUCTION

Radwraps are the latest innovation in the war for better radiator efficiency. Ofsgem introduces higher energy prices every year and wooden radiator covers steal a lot of heat from radiators that leads to higher energy waste. Our covers are made **bespoke**, easy to customise, and provide **no heat loss** as they do not block the radiator's convection system. Not to mention, the radwrap **applies** to the radiator **in seconds**.

No glues, no screws, no mess! Prices start from £39.99

WHO IS THIS CATALOGUE FOR:

Anyone who is tired of the boring sight of radiators and would like something stylish that does not increase the heating bills.

KEY DEFINITIONS

- **Ofsgem:** the government regulator for the electricity and downstream natural gas markets in Great Britain
- **Convection:** the transfer of heat due to the movement of fluid
- **HSE:** Health and Safety Executive
- **Antimicrobial:** Prevents the growth of or destroys a wide range of microbes such as bacteria, fungi and moulds
- **Wooden covers:** radiator cabinets usually made of wooden material that insulates heat and reduces continuous airflow

OUR RADIATOR COVERS

RADWRAP

The radwraps are great for a multitude of use from refreshing up a tired, old radiator to adding that finishing touch to a unique themed room. They can be either: **printed or full fabric.**

For printed covers, you can choose **any image** from our online gallery **or upload your own designs.**

For a fabric cover, you can select one of our available designs in our online gallery. **We currently do** multiple colours in **Crushed Velvet, Glitter and Faux Leather.**

The radwrap **applies magnetically to the radiator's front surface only** and has been **scientifically proven it does not generate any heat loss.**

[See Liverpool John Moores University's research for more.](#)

RADIMATCH

The **DIY version** of radwraps. The RadiMatch allows customers to place their own wallpapers on their radiators and to blend them in with their walls.

The RadiMatch is a special magnetic sheet with a self-adhesive surface. We send fitting instructions with all our orders.

What you'll need:

- Your wallpaper
- RadiMatch (size of the radiator's front surface)
- Spray bottle or damp sponge
- Wallpaper brush
- Stanley blade or scissors
- Dry cloth

NURSERY RADIATOR COVER

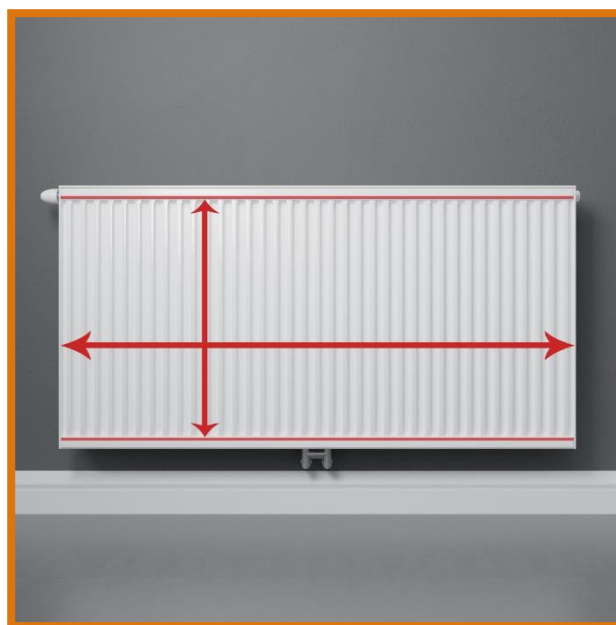

In institutions like care homes and nurseries, radiators can be hotter than usual and must be covered to avoid any burn-related accidents. We worked together with experts at Liverpool John Moores University and the NHS to design a **safety radiator cover**. Our Nursery Radiator Covers are made of a padded, leather-like material that **lowers the radiator's surface temperature below 43 °C (the HSE Standard), making it safe to touch.**

Similarly to our printed radwraps, **any images** can be used. The Nursery Radiator Covers are also **antimicrobial laminated, stopping the spread of harmful germs and bacteria.** We use Biomaster technology which provides **24-hour protection** for the lifetime of the product.

HOW TO ORDER

To order your fantastic radwrap, you will first need to **measure the front surface of your radiator(s)** from left to right and top to bottom, within the few millimetre wide, white border (refer to image on the right if your radiator has protruding top and bottom).

When you have your measurements ready you can insert them (in millimetres only) to the right product page at <https://www.radwraps.co.uk/select-your-product/> or alternatively, you can email us your measurements and your desired style to place your order.

Different radiators need to be measured differently, **if you are unsure how to measure yours, send us a photo to enquiries@radwraps.co.uk** and our helpful team will guide you how to do this. **We can't do measuring.**

Note: modern, wide radiators generally don't exceed 600mm in height but some older, single panelled models can be up to 695mm tall. **Storage heaters can be any size and are required to measure differently.**

PRICE RANGE

Prices depend on size and cover type. You can email us your size and chosen design or insert them to one of our pages via <https://www.radwraps.co.uk/select-your-product/> to find out your price. **Delivery is free** in mainland UK for all orders. There is an additional shipping charge of £25 for outside the UK.

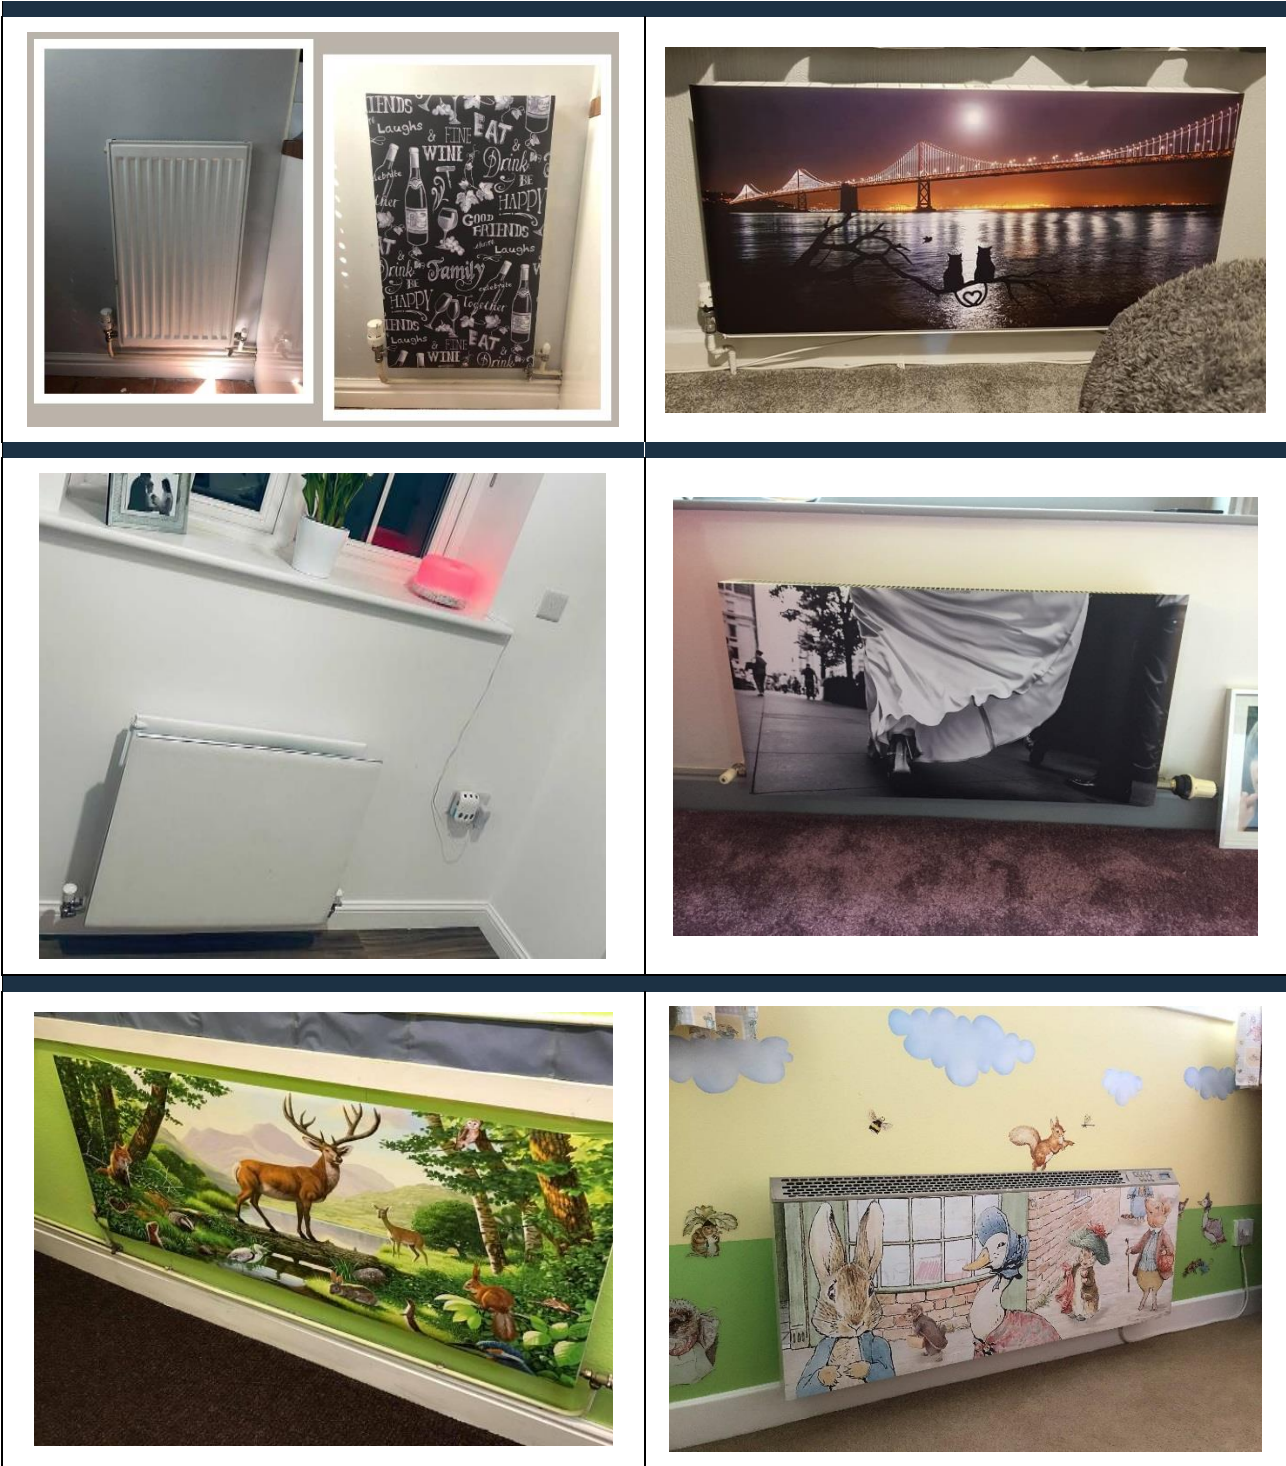

Here are some popular sizes and prices (VAT included):

Size in mm (width x height)	Radwraps, (printed/fabric) RadiMatch	Nursery Radiator Cover
600 x 400	£39.99	£39.99
750 x 300	£39.99	£39.99
800 x 400	£39.99	£48
600 x 600	£39.99	£54
1200 x 300	£39.99	£54
800 x 600	£48	£72
1200 x 400	£48	£72
1600 x 305	£48.80	£73.20
1000 x 500	£50	£75
1400 x 400	£56	£84
1000 x 600	£60	£90
1500 x 450	£67.50	£101.25
1800 x 400	£72	£108
1200 x 600	£72	£108
1500 x 600	£90	£135
1800 x 600	£108	£162
2000 x 600	£120	£180

We can send samples of our fabric radwraps for free. [Email us](#) with your address and preferred style to receive yours!

(SILVER, BLACK, CHAMPAGNE, WHITE CHAMPAGNE,
SLATE GREY, ROYAL BLUE, NAVY, RUBY RED)

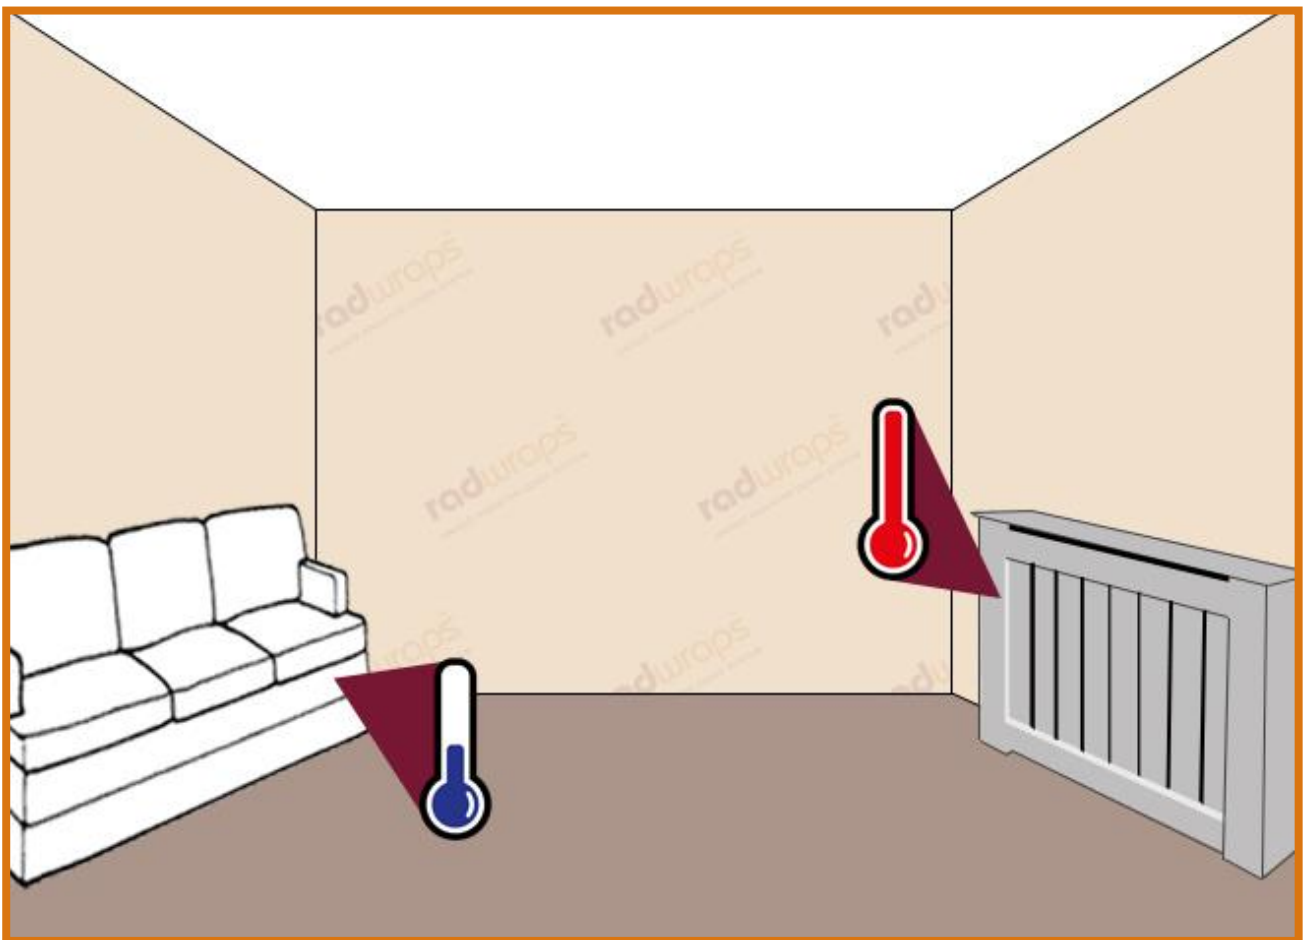

DIAMOND STITCHED FAUX LEATHER (SILVER OR BLACK)

THE TRUTH ABOUT WOODEN RADIATOR COVERS

Traditional radiator covers are commonly used for decorative or protective purposes (the latter mostly in health institutions and nurseries), however **they can seriously decrease the efficiency of radiators**. Not only they block the airflow but are usually made of wood which insulates heat.

As a result, a circulation of warm air is built up inside the cover and the **heat escapes a lot slower**. This leads to **colder rooms and hot radiator covers**. Once we realise the room is not as warm as we want it, we may turn up the thermostat and use even more energy on heating.

In a nutshell: the energy, that costs us more every year, is wasted on warming up the cover instead of the room.

ABOUT US

Radwraps Ltd, located in Birkdale, England, specialises in designing and producing innovative, magnetic radiator covers for home owners, interior designers, schools and nurseries in order to provide an affordable way of covering radiators efficiently.

Radwraps also provides dementia-friendly wall & ambulance graphics for the NHS as well as bespoke signage.

Their sister company, Post-Ease, has developed an efficient, environmentally-friendly alternative to laminating sheets and is currently helping the NHS in reducing their carbon footprint.
